PROFILE

Full Stack Developer with 3+ years building fast, accessible, and delightful digital products. Passionate about clean architecture, great UX, and shipping features that matter.

EXPERIENCE

Full Stack Developer

Jan 2024 — Present

TechVentures Inc.

- Led development of a multi-tenant SaaS platform serving 5K+ daily users.
- Improved API response time by 40% through query optimisation and Redis caching.
- Mentored 2 junior developers and introduced code-review best practices.

Frontend Developer

Jun 2022 — Dec 2023

DigitalCraft Agency

- Built and shipped 12 client websites and web apps on time and within budget.
- Introduced a shared component library that cut future dev time by 30%.
- Worked directly with designers and stakeholders to iterate on UX.

Software Engineering Intern

Jun 2021 — Aug 2021

Startup Hub

- Shipped a real-time notification system used by 10K users.
- Wrote integration tests that caught 3 critical bugs before production.
